## **SCOPE OF THE JOURNAL**

Chemical Engineering: An International Journal (CEIJ) is a Quarterly peer-reviewed and refereed open access journal that publishes articles which contribute new results in all areas of Chemical Engineering. The journal is devoted to the publication of high quality papers on theoretical and practical aspects of Chemical Engineering research.

The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on Chemical Engineering research advancements, and establishing new collaborations in these areas. Original research papers, state-of-the-art reviews are invited for publication in all areas of Chemical Engineering.

### Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
